## Weed Weapon Preventer

Granular barrier to stop weeds emerging

[www.kiwicare.co.nz](http://www.kiwicare.co.nz)

# Weed Weapon Preventer

## About

[Weed Weapon Preventer](#) is a part of the Weed Weapon product range. Weed Weapon enables you to get rid of weeds and prevent their return, our comprehensive range ensures that there is a product to solve your problem.

Weed Weapon Preventer is used in conjunction with the other Weed Weapon products – it is used as a barrier to prevent weed emergence, meaning that it is ideal to keep your garden, flower beds and pots weed free.

## Benefits and Features

- Will not harm established ornamentals and trees.
- Ideal for use in garden beds, around established ornamentals, shrubs and trees.
- Controls common weeds, including hard to kill bulbous weeds, prior to emergence.
- Suppresses weeds for long term control; up to 3 months.
- 200 g covers 10 m<sup>2</sup> or approximately 110 pot plants (30cm diameter).
- Safe for children and pets after watering in and left to dry.

## Controls

| • <a href="#">Catsear</a>    | • <a href="#">Speedwell</a>  |                           |

## Ideal Uses

Garden pots, around shrubs and trees, chip bark areas, gravel areas, and more....

## Directions

1. Clear existing weeds by weeding or by using [Weed Weapon Extra Strength](#) or [Rapid Action](#).
2. Once the weeds have been cleared, evenly sprinkle 20 g granules per square metre on bare soil surface.
3. Water in with 2 hours gentle sprinkler or moderate/heavy rain (at least 10mm).
4. Repeat application when weeds begin to appear, or every three months.

**1** Clear any existing weeds from soil. Sprinkle 20 g/m<sup>2</sup> over bare soil.

**2** Water in with 2 hours gentle sprinkler or moderate/heavy rain (at least 10 mm).

The granules will bind to form an invisible barrier on the soil which stops any seeds below the barrier emerging.

## For best results

- Apply to bare, moist, compact soil surface.
- Do not dig in or disturb soil surface after application.
- Water protected areas during dry periods to improve effectiveness.
- Repeat applications should be made after 3 months or as soon as weeds reappear.

## Tips & Tricks

- Gives up to 3 months protection.
- Not suitable for use where soil may be disturbed (i.e. pets).

## Caution

- Do not apply directly over plants that will funnel and collect granules around their leaf base or onto wet plant foliage.
- Not for use on lawns or around seedlings or creeping plants.
- Wait 90 days before replanting seeds or sensitive plants.

## Active Ingredients

20 g/kg Oxadiazon and 5 g/kg Simazine in the form of a granule.

**HSNO Approval Code:** HSR000471.

## Available As

**Shaker Pack:** 200 g, 20 kg.
